Directions:

1. Using a ruler and a toothpick (or other stylus), score all the lines vertically and horizontally.
2. Fold along the vertical lines.
3. Fold along the diagonal lines in both directions.
4. Color and cut out.
5. Fold/roll the template so that the three tabs tuck under the "hills." Glue and press into position and let dry for a few minutes.
6. Bend the kaleidocycle around like a snake.
7. Tuck the remaining tabs into the opposite end. Tape in place.

Watch "**Hattifant – Kaleidocycles New Series – Pattern I**" (or another YouTube tutorial) to see how to assemble a kaleidocycle.

What to Do:

Copy on lightweight cardstock; 1 for each kid.
